

Ms. Dina Reilly, Director  
Deer Park Public Library  
44 Lake Avenue  
Deer Park, NY 11729

Dear Ms. Reilly :

The U.S. Environmental Protection Agency (EPA) is currently performing a time-critical removal action at the Industrial Court Site under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). The CERCLA Removal Action is located in Deer Park, Suffolk County, New York.

We appreciate having the Deer Park Public Library as the designated administrative record facility for the Industrial Court Site. The enclosed record files, along with any future documents relating to technical activities at the site should be placed in the Deer Park Public Library and be available for public review. The record files should be treated as a non-circulating reference and should not to be removed from your facility.

By providing the public with greater access to these records, we hope that they will be better equipped to comment constructively about site activities and to understand the issues relating to the selection of the response action at the site.

Also enclosed is a fact sheet, "Administrative Records in Local Repositories", to assist you and your staff in answering questions posed by the public concerning administrative records for selection of response actions at Superfund sites. Please feel free to distribute this guide to the public.

To ensure the receipt of the administrative record file, I would appreciate your completion of the attached Document Transmittal Acknowledgement form. Please return this form in the enclosed self-addressed, stamped envelope.

Again, I would like to thank you for your cooperation with the EPA in serving as a Field Repository. If you have any questions or comments, please contact me at (908) 906-6874.

Sincerely,

Gregory B. DeAngelis

## **NOTICE OF PUBLIC AVAILABILITY**

### **The United States Environmental Protection Agency Announces The Availability of the Administrative Record for the Industrial Court Site**

The U.S. Environmental Protection Agency (EPA) announces the availability for public review of files comprising the Administrative Record for the selection of the removal action at the Industrial Court Site. The EPA seeks to inform the public of the availability of the record file at this repository and to encourage the public to comment on documents as they are placed in the record file.

The administrative record file includes documents which form the basis for the selection of a removal action at this site. Documents now in the record file include: Expedited Removal Assessment Criteria, Action Memorandum and the EPA regional guidance documents list. Other documents will be added to the record files as site work progresses. These additional documents may include, but are not limited to, other technical reports, validated sampling data, comments, and new data submitted by interested persons, and the EPA responses to significant comments.

The Administrative Record files are available for review during normal business hours at:

Deer Park Public Library

### Administrative Records in Local Repositories

The "Administrative Record" is the collection of documents which form the basis for the selection of a response action at a Superfund site. Under Section 113(k) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA), the EPA is required to establish an Administrative Record available at or near the site.

The Administrative Record file must be reasonably available for public review during normal business hours. The record file should be treated as a non-circulating reference document. This will allow the public greater access to the volumes and also minimize the risk of loss or damage. Individuals may photocopy any documents contained in the record file, according to the photocopying procedures at the local repository.

The documents in the Administrative Record file may become damaged or lost during use. If this occurs, the local repository manager should contact the EPA Regional Office for replacements. Periodically, the EPA may send supplemental volumes and indexes directly to the local repository. These supplements should be placed with the initial record file.

The Administrative Record file will be maintained at the local repository until further notice. Questions regarding the maintenance of the record file should be directed to the EPA Regional Office.

The Agency welcomes comments at any time on documents contained in the Administrative Record file. Please send any such comments to Gregory B. DeAngelis, Response and Prevention Branch, U.S. EPA Region II, Woodbridge Avenue, Edison, NJ 08837.

For further information on the Administrative Record file, contact Gregory B. DeAngelis, On-Scene Coordinator, U.S. EPA Region II, at (908) 906-6874.
